

Trojan Partners

Since 1925, Trojan Battery Company has built a reputation for quality products and superior service. Decades of experience, ongoing research and dedication go into every deep cycle battery we manufacture and these activities are supported by our strong partners.

As the world's deep-cycle leader, we are proud of our partner relationships:

OEM PARTNERS

Trojan Battery Company's Original Equipment Manufacturer (OEM) partners are essential to our success. There is no greater statement of confidence than to know that household names trust our brand to power their brands right off the assembly lines and in the most demanding environments. We have built strong relationships with well-known OEMs in the golf/utility, renewable energy, floor machine, aerial work platform/access, marine and recreational vehicle markets:
